For more information on lock ring configurations please call your local RIMEX representative or visit www.rimex.com

** RIMEX standard 63" HDT lock ring is not interchangeable with Cat OE 797 (TOPY) 63" lock rings. Contact RIMEX for special application

CAUTION: Each lock ring requires use of proper mating parts. Ensure that correct gutter section and bead seat band are used. EV style lock rings and gutter sections should NEVER be used in a loader application. TSR LOCK RINGS SHOULD ONLY BE USED WITH TSR MATCHING PARTS.
